

Assisted Reproductive Technology Benefit for Large Group Members

HAP currently offers an Assisted Reproductive Technology (ART) buy-up benefit for large group commercial customers. The benefit offers services for men and women including:

- Intrauterine insemination (IUI)
- Intravaginal insemination (IVI)

In Vitro Fertilization is not included.

New in 2024

In 2024, we are offering another option of this rider. It will include two total attempts of ART with a limit of one of those being for the following procedures:

- IVF
- Gamete intrafallopian transfer (GIFT)
- Zygote intrafallopian transfer (ZIFT)

Note: All options require an infertility diagnosis.

Policy and benefit information

For more information about our policy, log in at **hap.org**, select *More, Benefit Admin Manual* and search for *Assisted Reproductive Technologies*.

To determine benefit coverage, you can review the member's plan documents. They can be found when you log in at **hap.org**, select *More* then *Contracts, Benefit Guides & Riders*.
