

\$25 Incentive for Primary Care Providers

Complete the Health Risk Assessment for Healthy Michigan Plan Members

Healthy Michigan Plan (HMP) is a health care program from the Michigan Department of Health and Human Services (MDHHS). A key feature of HMP is the Healthy Behaviors Incentive Program which encourages HMP members to maintain and implement healthy behaviors.

HAP Empowered Healthy Michigan Plan members reside in Genesee, Huron, Lapeer, Macomb, Oakland, Sanilac, Shiawassee, St. Clair, Tuscola, and Wayne counties.

Health risk assessment

HAP Empowered Healthy Michigan Plan members are required to complete a health risk assessment (HRA) every year. They receive an HRA in their welcome packet. A copy of the HRA can also be found at hap.org/Medicaid; then *Healthy Michigan Plan, member resources*.

Within 60 days of enrollment, members are encouraged to schedule an appointment with their primary care provider. They're asked to take the HRA to the appointment. We also partner with Genesee Health Plan to outreach to members and help them complete the form. They also process the HRA.

\$25 incentive for providers

HAP Empowered offers a \$25 incentive for primary care providers who complete and return an HRA for their HAP Empowered Healthy Michigan Plan patients. Incentives are paid quarterly. Here are the steps for completing the HRA.

- The member completes sections 1-3 of the form.
- The doctor completes section 4 and signs the form.
- The doctor faxes the completed form to HAP at **(844) 225-4602** or to CHAMPS.
- The doctor gives the member a completed, signed copy of the HRA.
- The doctor bills with CPT code 96160. The transaction will appear on the remittance advice and submitted to the Michigan Department of Health and Human Services as an encounter.

Note: During the COVID-19 pandemic, the Michigan Department of Health and Human Services allowed HAP Empowered staff to complete the HRA with the member. **Effective July 1, 2023, this exception will end.** HRAs must include a final portion completed in collaboration between a member and a primary care provider. It must also include provider attestations of beneficiary healthy behaviors and/or changes. For more information, please refer to the [Medicaid Provider Manual](#).

Resources

MDHHS has developed three short training videos for providers:

- [Completing the Health Risk Assessment](#) - An introduction to the HMP HRA. It shows a step-by-step guide to completing the HRA.
- [Submitting the Health Risk Assessment](#) - Suggestions for integrating the HMP HRA into clinic workflow and for submitting the form once it is completed
- [Overview Healthy Behaviors Incentive Program](#) - Overview of the Healthy Michigan Plan Healthy Behaviors Incentive Program, including the HMP HRA, preventive services, and wellness programs
