Subject: MDHHS release Covid-19 vaccine recommendations

The Michigan Department of Health and Human Services has issued its Covid-19 Vaccine Recommendations for 2026-2027.

Blue Cross Complete covers the COVID-19 vaccine at no cost for members of all ages (age limits for children vary by manufacturer) when the vaccine is administered in a primary care provider's office or through a participating pharmacy.

For a list of medical conditions that place individuals at a higher risk of severe illness, please go to cdc.gov/covid/risk-factors. The medical condition list does not include all medical conditions that place a person at higher risk of severe illness from COVID-19. Rare medical conditions, including many conditions that mostly affect children, may not be included on this list. A person with a condition that is not listed may still be at greater risk than other people of getting very sick from COVID-19.

As vaccine guidance continues to develop, we encourage our members to seek recommendations directly from their PCP. For more information on COVID-19 vaccines, including details about the 2026-27 Food and Drug Administration approval, visit Michigan.gov/COVIDFluRSV.

If you have any questions, please contact your Blue Cross Complete provider account executive or Provider Inquiry at **1-888-312-5713.**
