

## **Reminder – Prior Authorization Requirement Lists Updated Monthly**

Our prior authorization requirements lists are updated monthly. A summary of changes from the previous month is also available. To access these lists:

- Log in at **hap.org**
- Select *Quick links*
- Select *Procedure Reference Lists* and refer to the appropriate list

Remember, there are many services and procedures that do **not** require prior authorization and it only takes a minute to check! When you open a list, you can search for a code by pressing the “ctrl” key and the letter F at the same time and entering a code in the search box.
