Just the Facts

Read the full [Just the Facts](#) document!

FACT: *The HPV vaccine does NOT contain harmful ingredients*

HPV vaccines contain ingredients that have been proven to be safe. Like the hepatitis B and Tdap vaccines, HPV vaccines contain aluminum, which boosts the body's immune response to the vaccine. In addition to certain vaccines, aluminum is found in breast milk, infant formula, antacids, and numerous foods and beverages, including fruits and vegetables, seasonings, flour, cereals, nuts, dairy products, and honey. Typical adults ingest 7 to 9 milligrams of aluminum per day; the HPV vaccines contain .225 milligrams of aluminum per dose. These vaccines, as well as most others, do not contain thimerosal (a preservative that contains mercury).

TALKING POINT: Given the quantities of aluminum we are exposed to on a daily basis, the quantity of aluminum in vaccines is miniscule. Aluminum-containing vaccines have been used for decades and have been given to over 1 billion people without problems.

Resource SPOTLIGHT

State Profiles Updated

In collaboration with the National AHEC Organization (NAO), the GW Cancer Center released updated [HPV Cancer and Prevention Profiles for 2017](#). These provide a state-specific snapshot of HPV-attributable cancers and vaccination rates and can be tailored with your organization's contact information and/or logo.

Resources Updated to Reflect 2-Dose Schedule

The [2017 immunization schedule for children and adolescents](#) was recently released and includes the 2-dose schedule. Find the schedule in various formats as well as details of what has changed at the link above.

The CDC has updated the content and format of their [Tips and Time Savers sheet](#) for talking with parents about the HPV vaccine.

Vaccine	Age	1 dose	2 doses	3 doses	4 doses	5 doses	6 doses	7 doses	8 doses	9 doses	10 doses	11 doses	12 doses	13 doses	14 doses	15 doses	16 doses	17 doses	18 doses	19 doses	20 doses
