

Machine-readable File Requirements Delayed

Effective July 1, 2022, per the Transparency in Coverage Final Rule, health insurers are required to publicly display the following information via machine-readable files on their websites:

- Negotiated rates with in-network provider
- Allowed amounts for out-of-network providers
- Prescription-drug pricing

These machine-readable files will include your TIN and NPI.

Important! If you are using your social security number as your TIN, you are encouraged to register for a new TIN. To update your new TIN with HAP, you can email it along with your W-9 to providernetwork@hap.org.
