

Care Management Model Overview

Mission

Strengthening primary care is the core of Oakland Southfield Physicians' (OSP) mission. To support this mission, OSP brings together a unique blend of care management programs into primary care practice.

Expertise

OSP's model is built on many years of experience in primary care based care management programs. This experience uniquely positions OSP with the skills necessary for success.

The Care Team

OSP's care management department is supported by a multi-disciplinary team.

Registered Nurse
(RN)

Master's Social Worker
(LMSW)

Pharmacist

Registered Dietitian

Programs

OSP's care management programs are designed to establish a sustainable model in primary care practice.

BCBSM Provider Delivered Care Management (PDCM)

- Traditional CPT code revenue
- Enhanced fee screen for eligible E&M codes (if patient engagement threshold met)

BCBSM Medicare Advantage High Intensity Care Management (HICM)

- Traditional CPT code revenue
- Limited patient panel based on acuity, caters to complex patients

Priority Health Care Management

- Traditional CPT code revenue
- Eligible for Physician Incentive Program (PIP) care transformation incentive (if patient engagement threshold and attestation requirement met)
