

naviHealth Name Change Coming in Early 2024

As you may know, we partner with naviHealth to manage post-acute care for our Medicare Advantage members in the following settings:

- Skilled nursing facilities (SNF)
- Inpatient rehab facilities (IRF)
- Long-term acute care (LTACH)

Recently, naviHealth became part of Optum® Home & Community Care, a division of Optum Health. In early 2024, naviHealth will transition their name to Home & Community Care. Some of the other changes you can expect at that time:

- Their emails will have an Optum address
- Team members will wear Home & Community Care apparel and badges
- Rebranding on resources such as nH Access, nH Predict, and nH Pulse (URLs will not change)

What won't be changing—their services and dedication to you and your patients.
